Reid Sinclair Brewer *

Ph.D. Marine Biology

B.S., United States Military Academy, 1995; M.S., University of Alaska Fairbanks, 2003.

thesis: Population Biology and Ecology of the North Pacific Giant Octopus in the Eastern Bering Sea

Abstract: The North Pacific Giant Octopus (*Enteroctopus dofleini*) is a highly mobile, long-lived cephalopod that inhabits the eastern Bering Sea. This study examines the population biology and ecology of this species in the eastern Bering Sea. Data were collected from 1995 to 2003, including size-at-age, growth, survival, and reproduction. The population is characterized by a long life span, delayed maturity, and a high degree of variability in recruitment. The population is currently declining, and the causes of this decline are unknown. This study provides the first comprehensive population biology and ecology of the North Pacific Giant Octopus in the eastern Bering Sea.

Major Professor: Dr. Brenda Norcross

Catherine Patricia Chambers *

Ph.D. Fisheries

B.A., Drake University, 2004; M.S., Southern Illinois University Carbondale, 2008.

thesis: Fisheries Management and Fisheries Livelihoods in Iceland

Abstract: The Icelandic fishing industry is a major source of income and employment for the country. This study examines the fisheries management and fisheries livelihoods in Iceland. Data were collected from 2004 to 2008, including catch, effort, and income. The study finds that the Icelandic fishing industry is currently overfished, and the causes of this overfishing are unknown. This study provides the first comprehensive fisheries management and fisheries livelihoods in Iceland.

esis: We are the Safety Net: Skills for Suicide Prevention Evaluating a Training to Increase Recognition and Response to Signs of Suicide Among At-Risk Peers

Abstract: This dissertation explores the effectiveness of a training program designed to increase the recognition and response to signs of suicide among at-risk peers. The study involves a pre-test/post-test design with a control group. The results indicate that the training program was effective in increasing the recognition and response to signs of suicide among at-risk peers.

Ph.D. Indigenous Studies

B.A., John Hopkins University, 1996; M.A., New York University, 2000.

esis: The Relationship Between the Indigenous Peoples of the Americas and the Horse: Deconstructing a Eurocentric Myth

Abstract: This dissertation explores the relationship between the Indigenous Peoples of the Americas and the horse. The study involves a historical and anthropological analysis of the role of the horse in Indigenous cultures. The results indicate that the horse played a significant role in the lives of Indigenous peoples, and that the Eurocentric myth of the horse as a domesticated animal is being deconstructed.

Ph.D. Geophysics

B.S., University of California, Santa Barbara, 2005; M.S., University of California, Santa Barbara, 2010.

thesis: Estimation of Full Moment Tensors, Including Uncertainties, for Earthquakes, Volcanic Events, and Nuclear Explosions

Abstract: This thesis presents a novel method for estimating full moment tensors (MTs) for earthquakes, volcanic events, and nuclear explosions. The method is based on a Bayesian framework that incorporates uncertainty in the data and the model. The results show that the method is able to estimate MTs with high accuracy and low uncertainty, even in the presence of noise and incomplete data. The method is applied to a set of earthquakes, volcanic events, and nuclear explosions, and the results are compared with those obtained from traditional methods. The results show that the method is able to estimate MTs that are more accurate and more reliable than those obtained from traditional methods.

B.B.A., Marshall University, 2007; M.S., University of Alaska Fairbanks, 2010.

**thesis: Valuing Residential Energy Efficiency in Two Alaska Real Estate Markets:
A Hedonic Approach**

Abstract: This thesis examines the relationship between energy efficiency and residential real estate prices in two Alaska real estate markets. The study uses a hedonic approach to estimate the value of energy efficiency features. The results show that energy efficiency features are positively correlated with real estate prices. The study also finds that the value of energy efficiency features varies by market. The findings suggest that energy efficiency features are a desirable attribute for homebuyers in both markets. The study also provides policy implications for the real estate industry and energy efficiency programs.

M. Charles Beier, a lifelong Alaska resident, is dedicated to bettering Fairbanks through his work at the University of Alaska Fairbanks. He has served on the Board of Directors of the University of Alaska Fairbanks since 2015, and is currently the Vice President of the University of Alaska Fairbanks. He is also a member of the Alaska State Bar Association and the Alaska State Bar Association.

After working for Alaska's largest employer, M. Beier has a long professional record in the construction industry. He has worked for the state of Alaska, the federal government, and the private sector. He has a degree in Business Administration from the University of Alaska Fairbanks, and has worked in various capacities for the state of Alaska, including as a project manager and as a senior advisor. He is currently the Vice President of the University of Alaska Fairbanks, where he is responsible for the university's financial operations.

M. Beier has a long record of achievement in the construction industry. He has worked for the state of Alaska, the federal government, and the private sector. He has a degree in Business Administration from the University of Alaska Fairbanks, and has worked in various capacities for the state of Alaska, including as a project manager and as a senior advisor. He is currently the Vice President of the University of Alaska Fairbanks, where he is responsible for the university's financial operations.

With a long record of achievement in Alaska, M. Beier has been a key player in the state's economic development. He has worked for the state of Alaska, the federal government, and the private sector. He has a degree in Business Administration from the University of Alaska Fairbanks, and has worked in various capacities for the state of Alaska, including as a project manager and as a senior advisor. He is currently the Vice President of the University of Alaska Fairbanks, where he is responsible for the university's financial operations.

He is dedicated to the University of Alaska Fairbanks and its success. He has served on the Board of Directors of the University of Alaska Fairbanks since 2015, and is currently the Vice President of the University of Alaska Fairbanks. He is also a member of the Alaska State Bar Association and the Alaska State Bar Association.
