

CONTRACTORS TOOL BOX FOR PROTECTION OF MINORS AND TITLE IX

8-28-18

All University of Alaska Fairbanks Campuses are open campuses, meaning minors could be present at any time. In addition, UAF provides housing to students and their families, hosts K-12 teachers with their students on all campuses, holds summer camps and activities, provides space for outside parties to rent that may include minors including the Youth Symphony, and has the ever popular sledding hill used by people of all ages.

Contractors and their employees working at any of our UAF campuses or field sites are expected to comply with UAF's Protection of Minors Policy and Reporting Procedures at all times. All contractor employees are expected to report any and all incidents of minor abuse, Title IX non-compliance, and discrimination within 24 hours, with immediate reporting being preferable. UAF believes this is a safety issue. To help you help your company and employees, we have put together talking points (below) to be used in your weekly safety meetings to reinforce positive behavior and effective reporting.

Please let us know if we can help in any way to promote a safe environment for everyone on campus.
