JUSTIFICATION FOR ACTION REQUESTED

The purpose of the department and campus program/degree change applications is to make sure that the quality of our education is not lowered as a result of the proposed change. Please address this in your response. This section needs to be self-explanatory. If you have any primary issues, it is because the material is covered elsewhere as much space as needed to fully justify the proposed change and explain how the change will improve the quality of the program's instruction and result.

To provide students with an additional option to complete the secondary education minor. Additionally, this course provides students not residing in Fairbanks with a course that is offered by distance delivery. This course also provides similar course content to the open secondary education minor upon its approval.
