Problem statement:
There are significant institutional barriers to cross-listing courses across colleges. Some colleges, like CFOS, will not allow cross-listing of their courses until the university changes its policy on tuition returns. These current policies create disincentives for faculty to collaborate across institutional boundaries, limiting creativity and exchange of ideas, and ultimately idpeicting the qua

Why this is an issue (or, the value of cross-listing):

- Cross-listing benefits graduate students by providing them with more ways to fulfill credits within their degree programs.
- Cross-listing benefits instructors by providing more exposure to graduate courses in the catalog and schedule (i.e., by listing in multiple departments), thereby increasing potential enrollment.
- Cross-listing benefits graduate education by increasing interactions among departments and disciplines, and crea

Proposed solution(s):
Reduce institutional barriers to cross-listing, the greatest of which is the current payment structure for tuition revenue. For example, in other universities, the department that pays the instructor receives the tuition.

[Does GAAC propose a solution, conclude with a position statement, or request that this issue is taken up at the Faculty Senate?]

The UAF Faculty Senate moves to update the regulations and guidelines on course stacking.

( IIHFWLYH Immediately

5 DWLRQDOH The current regulations and guidelines on course stacking are unclear and need clarification for the purposes of CourseLeaf coding and its relationship with Banner.

Please see attached regulations and guidelines.
